

## SECOND / THIRD READINGS SUMMARY SHEET

**ZONING CASE NUMBER:** C14-2008-0060, Zilker VMU Opt-In/Opt-Out Application

**REQUEST:**

Conduct a public hearing and approve second/third readings of an ordinance amending Chapter 25-2 of the Austin City Code by rezoning selected tracts within the Zilker Neighborhood Planning Area with the vertical mixed use building “V” combining district and amending the boundary of the vertical mixed use overlay district to exclude selected tracts.

The Zilker Neighborhood Planning area is bounded by Robert E. Lee Rd. and Rabb Rd. to the east, Barton Skyway to the south, the Union Pacific railroad tracks and South Lamar Blvd. to the west, and Lady Bird Lake on the north. (Barton Creek, Town Lake, and West Bouldin Creek watersheds)

**DEPARTMENT COMMENTS:**

The VMU Overlay District in the Zilker Neighborhood Planning Area includes approximately 124 acres. The Zilker Neighborhood Association is recommending excluding properties from the Overlay District totaling approximately 51 acres. For those properties recommended to remain in the Overlay District, the neighborhood association has recommended that 28 acres be opted-out of the Parking Reduction incentive (but the other incentives apply). The remaining 45 acres are recommended with all incentives (Dimensional Standards, Parking Reduction, and Additional Uses). The net acreage of the neighborhoods’ recommendations for properties to be given the Vertical Mixed Use Building (V) designation is 73 acres.

**ISSUES:**

**VALID PETITION:** The owner of Tract 33 located at 2001 La Casa Drive has submitted a valid petition opposing the neighborhood recommendation to exclude Tract 33 from the VMU Overlay District.

**Other Comments Received:**

- Tract 31B (2632 South Lamar; TCAD #303330)--A letter was received from Austin Sonics, LLC requesting to be excluded from the VMU Overlay District. Although the Zilker Neighborhood Association was recommending for this property to remain in the overlay district, they did not object to Planning Commission’s recommendation to exclude the property.
- Portion of Tract #38 (2120 South Lamar; TCAD #303227)—A Planning Commission Comment Form was received from the property owner (Patricia Baier) with the box checked “I am in favor of VMU”. Both the Planning Commission and the neighborhood association recommended this property to be excluded from the overlay district.

- Portion of Tract #39 (2110 South Lamar; TCAD #303238)—A Planning Commission Comment Form was received from the property owner (Central Avenue Partners) with the box checked “I am in favor of VMU”. Both the Planning Commission and the neighborhood association recommended this property to be excluded from the overlay district.
  - Another Comment Form was received for this address in favor of VMU from The Klein Group

APPLICANT: City of Austin, Neighborhood Planning & Zoning Department

AGENT: City of Austin, Neighborhood Planning & Zoning Department (Melissa Laursen)

DATE OF FIRST READING: August 28, 2008.

DATE OF 2<sup>nd</sup>/3<sup>rd</sup> READINGS: October 2, 2008

CITY COUNCIL ACTION:

August 28, 2008: The public hearing was closed and first reading of the ordinance was approved as follows on Mayor Pro Tem McCracken’s motion, Council Member Morrison’s second on a 7-0 vote.

- Tracts 4, 9, 11-17, 19-20, 22-25, 28-29 and 49 were approved for vertical mixed use building (V) zoning with dimensional standards, parking reduction and additional uses in office districts.
- Tracts 31A, 37, 41, 43-44, 46, 48 and 50-51 were approved for vertical mixed use building (V) zoning with only dimensional standards and additional uses in office districts.
- Tracts 1-3, 5-8, 10, 18, 21, 26-27, 30, 31B, 32-36, 38-40, 42, 45, 47 and 52-57 were excluded from the Vertical Mixed Use Overlay District.
- An affordability level of 60% of the median family income for 10% of rental units in a vertical mixed use building was included.

## **NEIGHBORHOOD RECOMMENDATION**

The Zilker Neighborhood Association evaluated each property proposed for the Vertical Mixed Use Overlay using five criteria: 1) neighborhood character preservation; 2) infrastructure capacity; 3) environmental protection; 4) prevention of VMU creep and compatibility; and 5) preservation of local small businesses. The neighborhood's VMU recommendations are based on the results of this evaluation and analysis.

Please see Attachments 1 and 2 for additional information concerning Neighborhood Recommendations.

## **BACKGROUND**

On August 31, 2006, the City Council adopted the "Design Standards & Mixed Use" ordinance as Subchapter E of Chapter 25-2 of the City Code. Most of the provisions of the ordinance went into effect on January 13, 2007. However, a separate process and schedule was established within the ordinance for Vertical Mixed Use.

The VMU Opt-In/Opt-Out process provides an opportunity for neighborhoods to offer recommendations regarding the location and development standards for Vertical Mixed Use Buildings. The primary focus of this process is on property fronting certain major arterials defined as Core Transit Corridors; however, other properties may also be eligible for VMU. With some exceptions, properties fronting on a Core Transit Corridor are eligible for VMU unless "opted-out". Properties not fronting on the Core Transit Corridors are not eligible for VMU unless "opted-in".

As part of the Vertical Mixed Use (VMU) Opt-In/Opt-Out process the city of Austin was divided into approximately 80 neighborhood planning and/or VMU application areas. Over the next several months each of the application areas affected by the VMU process will be the subject of a zoning case. The Planning Commission will review these cases and provide recommendations to the City Council who will make the final determination as to the applicability of VMU. Zoning case C14-2008-0060 is the final step in the Vertical Mixed Use Opt-In/Opt-Out process for the Zilker Neighborhood application area.

Representatives of the Zilker Neighborhood Association submitted a Vertical Mixed Use (VMU) Opt-In / Opt-Out Application to the City on June 4, 2007. The neighborhood association submitted an amended application on August 9, 2007.

### **Impervious Cover**

The maximum impervious cover limits for the proposed zoning districts are as follows:

LI, Limited Industrial Services	80 %
CS, Commercial Services	95 %
CS-1, Commercial – Liquor Sales	95 %
W/LO, Warehouse Limited Office	70%
GR, Community Commercial	90 %
LR, Neighborhood Commercial	80 %
LO, Limited Office	70 %
MH, Mobile Home	N / A
MF-4, Multifamily Residence Moderate – High Density	70%
MF-3, Multi-family Residence (Medium Density)	65 %
MF-2, Multi-family Residence (Low Density)	60 %
SF-6, Townhouse & Condominium Residence	55%
SF-5, Urban Family Residence	55%
SF-3, Family Residence	45 %
SF-2, Single Family Residence – Standard Lot	45 %
P, Public	varies (refer to the <u>Land Development Code</u> )

The maximum amount of impervious cover is determined as the more restrictive figure of the zoning district and watershed class.

### **Transportation**

Additional right-of-way (ROW) necessary for future roadway improvements within the proposed zoning may be required during the subdivision review process or the site plan review process.

Since the rezoning of this area is being initiated by the City of Austin through the neighborhood planning process and does not reflect a specific development proposal, no trip generation calculations are provided on a tract-by-tract basis for any proposed land uses as would typically be provided.

A Traffic Impact Analysis (TIA) will be required during the site plan review stage for any proposed land use that would generate over 2,000 vehicle trips per day. Additional ROW, participation in roadway improvements, and/or limitation on development intensity may also be recommended based on review of the TIA.

### **Water and Wastewater**

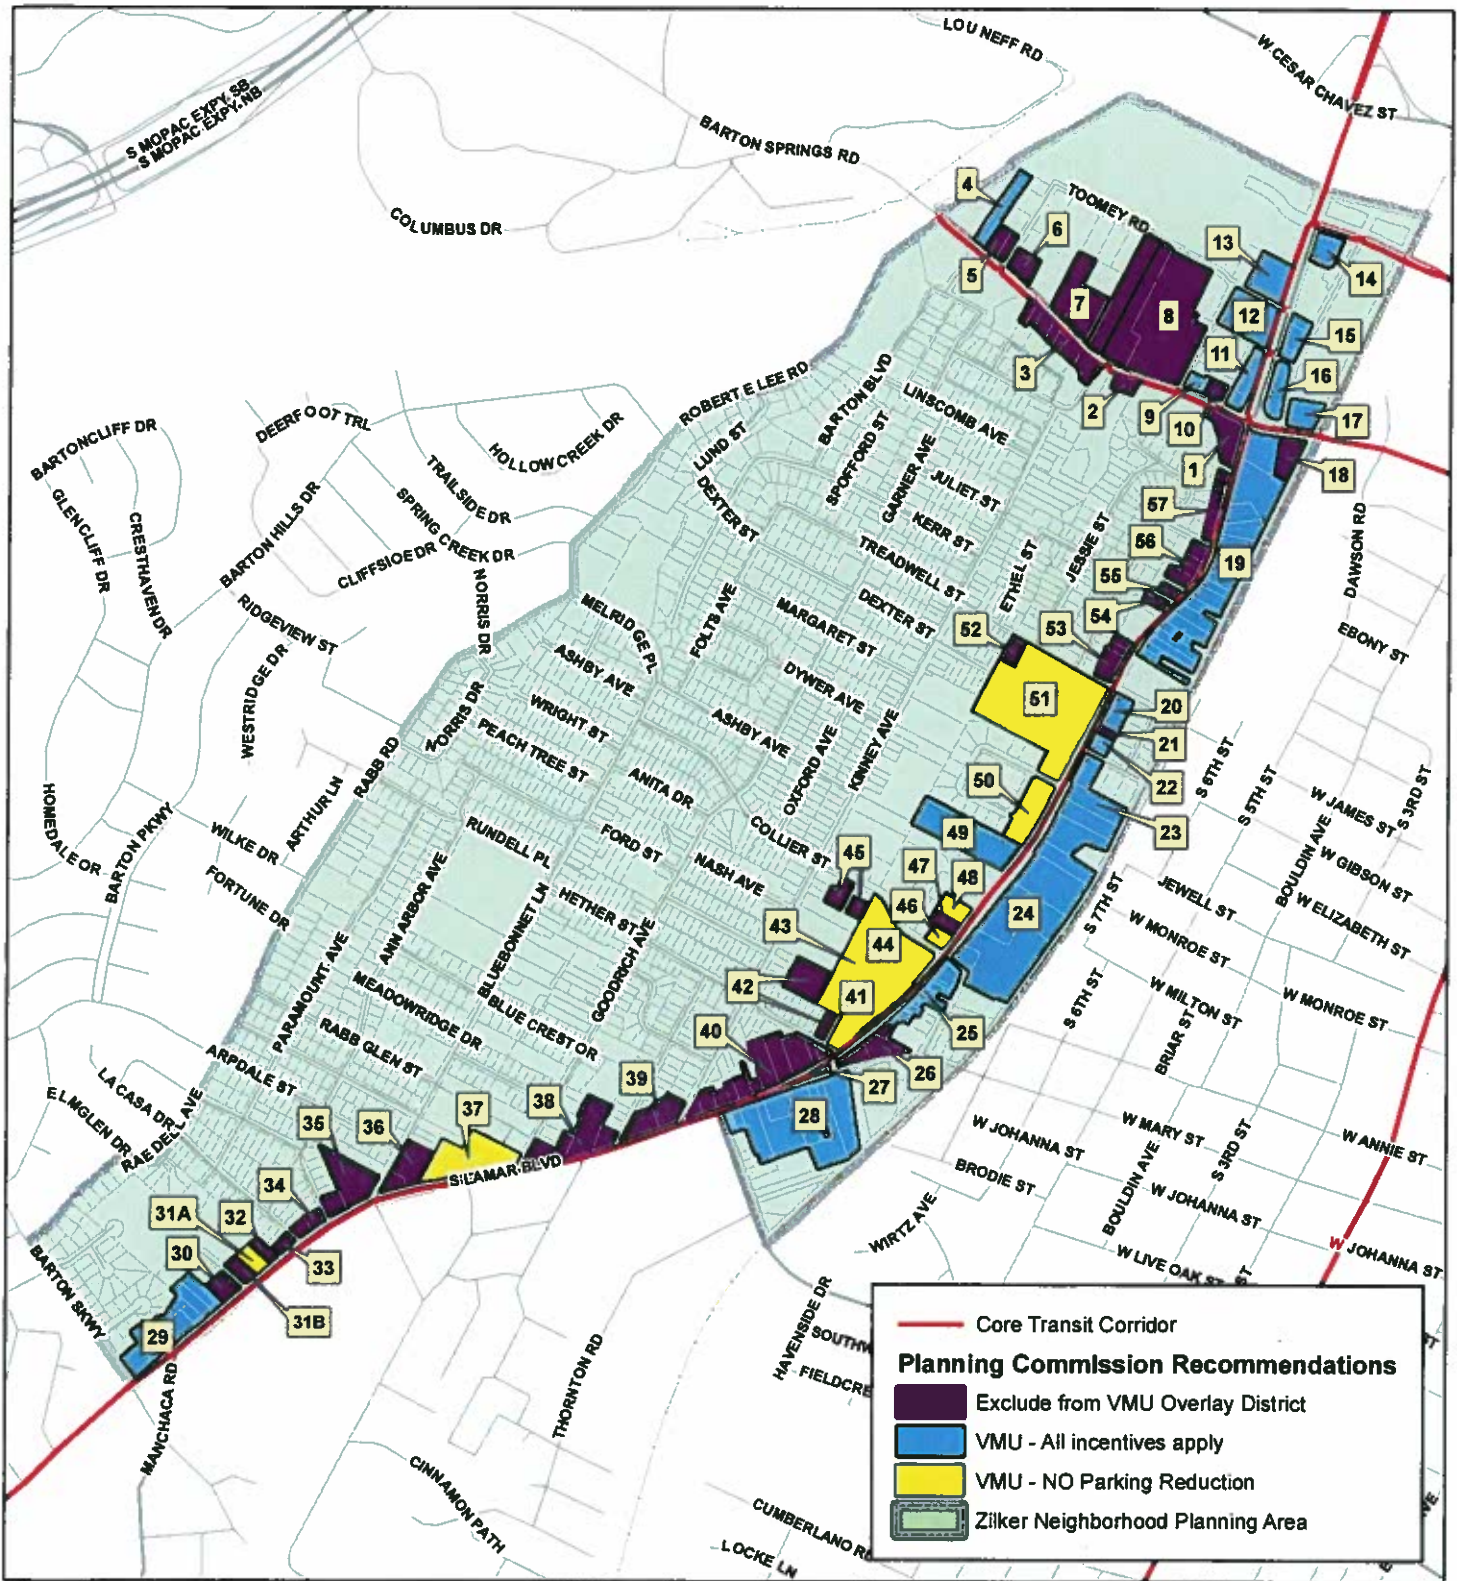

The area is served with City of Austin water and wastewater utilities. If water or wastewater utility improvements, or offsite main extension, or system upgrades, or utility relocation, or adjustment are required, the landowner, at own expense, will be responsible for providing.

Also, the water and wastewater utility plan must be reviewed and approved by the Austin Water Utility. The plan must be in accordance with the City design criteria. The utility construction must be inspected by the City. The landowner must pay the associated City fees.

**Compatibility Standards**

Any development which occurs in an SF-6 or less restrictive zoning district which is located 540-feet or less from property in an SF-5 or more restrictive zoning district/use will be subject to compatibility development regulations.

5<sup>th</sup> Floor, Room 525

Re: ZNA Vertical Mixed Use application amendment

Greg

On June 4, 2007, the Zilker Neighborhood Association submit our application for the Opt-in/Opt-out VMU process. At that time we chose to take advantage of the City Council's approved extension of time for neighborhoods to submit their final VMU recommendations and essentially submitted a place holder with regard to the detail recommendations on the application of VMU, Dimensional Standards and Parking Reductions. However we did at that time and continue to recommend that the level of affordability for rental units be set at 60% of median family income for our neighborhood.

With regard to detail recommendations for all properties along Zilker's two Core Transit Corridors, Barton Springs Road and South Lamar, please find attached the Zilker Neighborhood Associations final recommendations. In evaluating all of the properties along the CTC's we encountered numerous discrepancies in property addresses between the City's VMU map and what is either the locally know business address or what is noted in the Travis County Appraisal District's tax rolls. Therefore we have created a spreadsheet to more clearly identify which properties are being referenced in the Opt-out process.

In addition we also noted several properties on the City of Austin VMU maps that do not front either South Lamar or Barton Springs Road. Where those addresses showed up in the City's VMU maps we believe they should not be considered for VMU at this time, but rather be considered later as part of the Opt-in process. However we have included these properties to be sure that they were addressed and have noted them to be opted out. We understand that the ability to "Opt-in" a property that is not on a CTC is not time limited and can be done in the future. So at this point, other than for those properties that we feel were inadvertently included on the City's VMU maps, we are not adding any Opt-in properties at this time.

We have also included a summary of the column categories used in our spreadsheet, which includes the criteria that our neighborhood used in evaluating the appropriateness of applying VMU to these CTC properties. These five criteria are referenced on the spreadsheet under ZNA Criteria. And finally we have included the property photographs that are referenced again on the spreadsheet.

The Zilker Neighborhood Association has been working on this recommendation for over six months and has had several quarterly meetings and numerous Executive Committee meetings where this issue has been discussed. As you are aware this is a complicated ordinance, has had several changes since it was originally adopted and it has very important ramifications to our neighborhood. And with over 170 individual properties to evaluate, it has not been a quick or simple process to come to consensus on our recommendations. However these recommendations represent a thoughtful and well considered approach to balancing our neighborhoods responsibility for accommodating reasonable growth and the preservation of what makes our Zilker neighborhood a unique and wonderful place to live. Because of the complexity of the issues involved and the careful deliberation that we have had, parcel by parcel, we believe that these recommendations should be supported by the City staff and adopted by the City Council as described in the attached spread sheet without any changes.

We would also like to meet with the City staff that will be reviewing our recommendations prior to them making their own recommendations. Because of the discrepancies in the street addresses, concerns about very deep commercial lots extending into the residential fabric of the neighborhood and confusion on some of the properties shown on the City's VMU maps, we feel a meeting with staff would be helpful to ensure that all correct properties are accounted for and that our evaluation criteria is clearly understood by City staff.

Finally we are aware of the problem that has arisen with the Expedited Residential Permit Parking (RPP) program. The City Council's intent of allowing neighborhoods to move forward with protections for our residential areas from intrusive over flow parking due to increased commercial development facilitate with the application of VMU has to be respected. Our submittal is based on the understanding that we can utilize this expedited process if we need to. To have this neighborhood preservation tool removed by staff after it was part of our consideration in where to apply VMU is unacceptable. Had this interpretation by staff been know earlier in our process our recommendations may have been different. But at this late hour we do not have the time to reexamine how the lack of the expedited RPP program would have changed our recommendations. Therefore we urge the staff and City Council to correct this situation and reinstate what all of our neighborhoods understood would be available to us to deal with the potential residential parking problems aggravated by the application of VMU.

Please let me know when a meeting with staff can be arranged to review our recommendations and confirm property addresses. As you are aware the South Lamar Combined Neighborhood Planning area may be getting started again soon and we would like to have the application of VMU to our commercial corridors resolved before resuming the neighborhood planning process. If you have any questions please give me a call.

Thanks for you consideration of our recommendations.

Jeff Jack  
ZNA President  
447-5877

**Zilker Neighborhood Association**  
**August 9, 2007**

ZNA Vertical Mixed Use application amendment, description of spreadsheet columns

Col. # Descriptions

**1. Address**

Locally know street address of business from yellow pages or from Travis County Appraisal District tax rolls.

**2. Current Use**

Local business name or type of use

**3. VMU Address**

City of Austin street address from VMU maps provide to neighborhood

**4. Photo No.**

Photograph identification numbers

South Lamar West side	W-1 to W-87
South Lamar East side	E-88 to E-139
Barton Springs Road North side	N-140 to N-156
Barton Springs Road South side	S-157 to S-171

**5. Res.**

Residential use or zoning. Properties not available for VMU

**6. VMU**

VMU Opt-in Opt-out process

NA.	Not applicable, either city owned land or residential use or zoning
IN	Opt-in, yes to VMU
Out	Opt-out, no to VMU

## **7. ZNA Criteria**

### **A. Neighborhood Character preservation**

A current use is desired and we want to keep it as part of the fabric of the community such as Culturally, Iconic or Historic landmarks or to maintain small local businesses and services

### **B. Infrastructure Capacity**

The local infrastructure, roadway and sewer capacity is inadequate to support the added density.

### **C. Environmental protection**

There are environmental features that should be protected such as water quality features, scenic view sheds and view corridors and significant tree canopy

### **D. Prevention of VMU creep and compatibility**

The lot is small and the application of VMU would encourage the conversion of adjacent residential lots to commercial uses to make VMU feasible or would have negative impact on adjacent residential properties.

### **E. Preservation of local small businesses**

The cumulative impact of adding VMU to multiple adjacent properties would encourage the aggregation of small properties into larger tracts and the displacement of the corresponding small businesses by larger developments.

## **8. Density Bonus**

### **Dimens.**

Relaxation of dimensional standards either Yes or No

### **Parking**

Reduction of parking requirements from 80% to 60%, either Yes or NO

## **9. Property ID**

Travis County property identification number from Tax Rolls

## **10. Ref. ID 2**

Travis County parcel number. Please note to find particular properties by Ref. ID using these numbers, add one zeros before the first digit and four zeros after the last number.

## **11. Owner Name**

Current owner as listed on Travis County Appraisal District tax rolls

## **12. \$ Value**

TCAD property appraisal 2006 –2007

#### FOOTNOTES

- (1) Apartment complex on undivided CS commercial lot with Lamar Plaza Shopping Center. ZNA prefers separating this portion of the tract from the shopping center in order to maintain the affordable housing units.
- (2) This commercial lot extends deep into the residential portion of the neighborhood and actually surrounds a single-family house. ZNA prefers to limit VMU to the front of the tract, just east of the existing residential property.
- (3) This commercial lot extends deep into the residential portion of the neighborhood and has an additional lot connecting it to Hether. This makes the rear of the lot problematic for VMU. ZNA prefers to limit VMU to the front portion of the tract and to opt out of VMU on the lot extending to Hether.
- (4) Existing house used for real estate office at 2001 LaCasa is not shown as a VMU lot on city's map, but it is on CTC. ZNA prefers to opt out on this property.

#### FOOTNOTES

- (1) The majority of the tract is currently residential, but the restaurant on the front of the parcel is not divided from the larger tract. To retain the residential use, ZNA therefore recommends that the entire tract be opted out of VMU.
- (2) The Mobile Manor tract is entirely residential use.
- (3) A mix of residential and retail uses are currently found on this tract. Because it has a residential use and meets other criteria, ZNA recommends that this property be opted out of VMU.
